## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement (IDS) that was submitted on 10/31/2003 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner is considering the information disclosure statement.

### ***Allowable Subject Matter***

Claims 1-10, 19-28, and 31-59 are allowed over the prior art of record as amended in the 05/29/2008 reply.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device of a syringe with a needle cannula having a five-beveled point including a primary bevel, tip bevel, pair of middle bevels intermediate to the primary bevel and tip bevel with each bevel extending at a specific angle of rotation and decreasing intercept height.

The closest prior art of record is Larson (USPN 4,020,837) and Hausser (USPN 5,385,555), however these references do not disclose the device as claimed or described above.

Regarding claims 1, 19, 28, 38 and 50, the closest prior art of record fails to teach among all the limitations or render obvious the needle cannula comprising the specific flat bevel geometry of the primary, tip, and intermediate bevels contiguously bounding the needle lumen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
